Dear Chief Warrant Officer [REDACTED]

This is in reference to your application for correction of your naval record pursuant to the provisions of title 10 of the United States Code, section 1552.

A three-member panel of the Board for Correction of Naval Records, sitting in executive session, considered your application on 3 June 1999. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, your naval record and applicable statutes, regulations and policies. In addition, the Board considered the two advisory opinions from Headquarters Marine Corps (HQMC), dated 24 March and 20 April 1999, copies of which are attached.

After careful and conscientious consideration of the entire record, the Board found that the evidence submitted was insufficient to establish the existence of probable material error or injustice. In this connection, the Board substantially concurred with the comments contained in the advisory opinions in finding that your failures by the Fiscal Year 1998 and 1999 Reserve Chief Warrant Officer-4 Selection Boards should stand. Since the Board found insufficient basis to strike your failures of selection for promotion, they had no grounds to recommend granting you a special selection board, or setting aside your transfer to the Retired Reserve on 1 March 1999. In view of the above, your application has been denied. The names and votes of the members of the panel will be furnished upon request.

It is regretted that the circumstances of your case are such that favorable action cannot be taken. You are entitled to have the Board reconsider its decision upon submission of new and material evidence or other matter not previously considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records.

edition of reference (a) and are also provided in the most recent iteration. Further, the Marine Corps offered Chief Warrant Officer [REDACTED] the option to transfer to the ISL as a standard procedural step during FY93 and FY94 through letters of notification which are a normal process of the annual Marine Corps Reserve Officer Mobilization Potential Screening Board.

4. As a result of a protracted period of non-participation, Chief Warrant Officer [REDACTED] was first screened for mobilization potential by the FY93 Board and advised of her failure to earn the requisite retirement points. Chief Warrant Officer [REDACTED] communicated with the Board, maintaining her status, and was retained. In FY94, she was again notified of retirement point deficiencies by the Board. Her name was removed from the screening list after having earned sufficient points to satisfy the minimum requirement. Had she not joined an Individual Mobilization Augmentee Detachment in March 1996, Chief Warrant Officer [REDACTED] would have been screened again in August of that year.

5. Members of the IRR may contact MCRSC, toll-free, if any questions regarding Reserve status or participation arise. Additionally, published instructions on retirement point requirements are available from a myriad of sources. Ultimately, it is incumbent upon the individual officer to remain apprised of his or her Reserve status and monitor his or her personal career in the Marine Corps Reserve.

6. Reserve Affairs Division defers to the Personnel Management Support Branch (MMSB) of the Personnel Management Division for comment on the remaining claims.
